DEAN’S MESSAGE

Recognizing the importance of the physical and mental well-being of our students, we are committed to providing them with a comprehensive educational experience that will not only prepare them for success in their academic pursuits but also equip them with the skills they need to thrive in today’s rapidly changing world.

The College of Engineering & Physical Sciences at JECU is proud to be a part of this transformative journey, and we are committed to fostering an environment that is conducive to learning, innovation, and personal growth. Our dedicated faculty and staff, along with our state-of-the-art facilities, provide a platform for students to excel in their chosen fields.

The College of Engineering & Physical Sciences offers a variety of undergraduate and graduate programs across multiple disciplines. Our faculty, comprising experts in their respective fields, is committed to delivering high-quality education and research opportunities.

I would like to extend my warmest congratulations to our distinguished alumni who have made significant contributions to their fields. Their success serves as a testament to the excellence of our programs and the value of the education we provide.

I encourage all students to take advantage of the resources available to them, including academic advisors, professional development opportunities, and the support of our alumni network. Together, we can create a future that is bright and充满无限可能.

Best regards,

[Dean’s Signature]
Why Choose COE?

1. International accreditation:
   The undergraduate programs are internationally accredited by ABET and a number of them are internationally accredited by EAB.

2. You learn from the best:
   Our faculty is made up of top-notch professors who have extensive experience in academic research and industry.

3. Promising career for engineers:
   Our graduates have obtained many positions in leading industries and organizations with attractive salary packages.

4. Access to industry leaders:
   Our Engineering Society enables students to interact with industry leaders and professionals.

5. Rich internship opportunities:
   Students have the opportunity to work in leading industries and companies through internships and co-op programs.

6. Opportunities for research and innovation:
   The college offers facilities and resources to support innovative research and development.

7. State-of-the-art facilities:
   Our campus is equipped with the latest technology and modern laboratories.

8. Scholarships available:
   The college offers a variety of scholarships for engineering students.

9. Ample opportunities to get involved:
   The college provides numerous opportunities for students to get involved in extracurricular activities and organizations.
